

date	SUNDAY, Oct 11		MONDAY, Oct 12		TUESDAY, Oct 13 (World Thrombosis Day)	
08.00	THE breakfast with JOE Caprini (meet & greet)		08.00	THE breakfast with JOE Caprini... & the PET Document Leadership	8.00	THE "almuerzo" with JOE Caprini & LECTURE "Race and Ethnicity influence in VTE".
			08.10	Pelvic Pain differential diagnosis		
			08.25	Neurological differential diagnosis in leg pain		
			08.40	Onco edema best management		
09.00	KEYNOTE SESSION	Diana Neuhardt, Alfonso Tafur, Sergio Ghanesini	09.00	FREE TALKS with PROF. CAPRINI (8 min talk, 4 min questions)		LATIN AMERICA COMMUNITY MET & UNMET NEED IN THROMBOSIS CARE (8 min talk, 4 min questions)
09.10	Joe's Life, collection of Pictures and honor trajectory	Fareed J	09.05	Translational biomarkers beyond D-dimer		Hispanic Paradox, truth or legend?
09.20	KEYNOTE: Why & How Caprini changed clinical decision-making	Caprini J	09.20	PRS, is it useful ?		CV Healthcare Gaps in hispanics
09.40	"C" as (Joe & Carol) Caprini Multi-Specialty Care	Joe & Carol Caprini (USA), Ghanesini S (ITALY), Tafur A (USA)	09.35	Met and unmet needs in Thrombotic Risk Assessment: Kazakhstan perspectives		Varicose veins, Latam experience.
10.00	Joe the Man:" real learning happens when you are having fun" + OPEN CONTRIBUTIONS	Family & Friends & Audience	09.50	Met and unmet needs in Thrombotic Risk Assessment: Central America perspectives		Call to action, Where to go next in Latina Amerian VTE research
10.30	coffee break		10.05	Lymphedema Treatment Act: present & future		Met & Unmet needs in Latam Population Precision Medicine
11.00	"T" as in "T"think about "T"hrombosis (8 min talk, 4 min questions)	Aguero C (Paraguay, S AM)	10.20	WRAP UP		Creating Clinical trial centers in LATAM
11.05	Superficial Venous Thrombosis: state of the evidence	Chi YW (USA)	10.30	healthy coffee break		PERTinent
11.20	Deep Venous Thrombo-embolism: state of the burden	Peron G (BRAZIL)	11.00	P.E.T. v-WIN document session: THROMBOSIS ACROSS SPECIALTIES on the road to Kenya Le.G.athering World Congress (8 min talk, 4 min questions)		Selected PODIUM & POSTER presentations (5 min talk + 2 min questions)
11.35	Thrombotic risk in Lymphedema & Lipedema	Rockson S (USA)	11.05	Integrative medicine in Vascular health		4D Flow MRI Evaluation of the Impacts of Hydration on Central Venous Hemodynamics
11.50	An anti-thrombotic drug called "Life-style"	Aguero C (PARAGUAY)	11.20	Pelvic Venous Thrombosis		Pulsed Electromagnetic Field Therapy Compared to Conventional Mechanical Prophylaxis for Venous Thromboembolism Prophylaxis in The Intensive Care Unit —The SOPHIE Trial
12.05	Arterial events in CAT: From Vein to brain	Siegal D (CANADA)	11.35	Imaging and Cardiac Device Thrombosis		Effect of a Multifaceted Quality-Improvement Intervention on Evidence-Based Venous Thromboembolism Prophylaxis in Hospitalized Patients
12.20	Trauma-related Thrombosis: 3 golden rules	Col. Sampson J (USUHS, USA)	11.50	Vascular ultrasound via endoscopy		Drosophila melanogaster as a Translational Model for Thrombosis
	WRAP UP		12.05	Monitoring patients by wearables		Neutrophil-to-lymphocyte ratio is associated with 30-day mortality in acute pulmonary embolism across European Society of Cardiology risk categories
12.45	LUNCH		12.20	Mistakes to avoid in thrombosis risk studies methodology		May-Thurner Syndrome: A Case Series of Anticoagulation Management, Vascular Comorbidities, and Venous Stenting
13.30	THROMBOINFLAMMATION (8 min talk, 4 min questions)	Stoughton J (USA, N AM)	12.35	WRAP UP		Venous Stent Endothelialization: A Key Step Toward Long-Term Patency
13.35	Advancements in compression	Lurie F (USA)	12.50	Lunch		LUNCH & ORAL POSTERS (5 min talk, 2 min questions) + Expert CASE DISCUSSION
13.50	The Xis are coming... Or are they NOT ?	Spyropoulos A (USA)	13.30	INVITED LECTURES (8 min talk, 4 min questions)		Thromboinflammation and Hemostatic Activation Drive Early Mortality Risk in Pulmonary Embolism.
14.05	Integrating decision making. How to predict recurrence in Today's Medicine	Stiller S (USA)	13.35	Advanced LE Deep Venous Valvular Duplex		Prospective study to evaluate quality of life score and complications with the TETHA technique Transfixing Endovenous Thermal Ablation) in the treatment of tributary veins
14.20	Artificial platelets on the horizon?	Gniedeck T (USA)	13.45	PE thrombolysis vs suction thrombectomy: will there be a winner?		Analysis of the experience of being a woman in the surgical environment (study PROTEC-OR)
14.35	Post-venous procedure thromboprophylaxis: state of the evidence	Cardoso N (BRAZIL)	14.05	Thrombectomy and procedures for splanchnic system		Biomarkers of Pulmonary Embolism
14.50	V.A.L.I.D., v-Registry & Le.G.athering AFRICA for appropriate RWD management	Portugal M (BRAZIL) - Ghanesini S (ITALY)	14.20	Pelvic Venous Disorders: aspects every specialist should know		
15.05	COFFE BREAK		14.35	Complex IVC filter extraction		
15.30	WWW.SCLEROTHERAPY: W.henever, W.henever, surely not W.hatever		14.50	Targeting inflammation with endovenous therapies in a unique preclinical Rodent model		
15.35	Opening remarks	Chi YW, Ghanesini S, Tafur A	15.05	Partnering Thrombophilia experts in Cryptogenic stroke care		
15.35	Sclerotherapy Safety Evidence: wherever, whenever	Ghanesini S (ITALY, Europe)	15.20	AI in prediction and Digital twins in VTE		
15.45	Discussant (TBD)	Wakefield T (USA)	15.35	Deep Venous Reflux Treatment on the Horizon		
15.50	Sclerotherapy Indications	Peron G (BRAZIL, South America)	15.50	WRAP UP		
16.00	Discussant (TBD)	Garby K (USA)				
16.05	Sclerotherapy tips & tricks for the best clinical practice. SCLEROtherapy is not THROMBOtherapy	Pittman C (USA, N America)				
16.15	Discussant	Neuhardt D (USA)				
16.20	ROUND TABLE: Stoughton J (USA), Lazarashvili Z (Georgia, Europe), Sharipov A (Kazakhstan, Eur-Asia), Grillo L (Costa Rica, Central America)					
16.30	Cancer-Associated Thrombosis	Connors J (USA)				
16.45-17.00	CLOSING REMARKS	Fareed J (USA)				
19.00	DINNER @ JOE'S					

Event assessed as compliant by the Conference Vetting System
