SCIENTIFIC PROGRAM

1 hour LOWER LIMB VENOUS DISEASE CLINICAL ASSESSMENT

- 15 min Patho-physiology (Jindal R)
- 15 min Signs & symptoms (Gianesini S)
- 15 min Visit report (Bottini O)
- 15 min 10 golden rules (Gianesini S)

1 hour LOWER LIMB VENOUS DISEASE SONOGRAPHIC ASSESSMENT

- 15 min Setting the machine (Neuhardt D)
- 15 min Superficial venous system assessment (Neuhardt D)
- 15 min Deep venous system assessment (Labropoulos N)
- 15 min 10 golden rules (Labropoulos N)

1 hour SUPERFICIAL VENOUS OPERATIVE OPTIONS

- 15 min Strategy planning & technique (Gianesini S)
- 15 min Phlebectomy: instructions for users (Kabnick L)
- 15 min Endovenous Thermal Tumescent (Kabnick L)
- 15 min Endovenous Non Thermal Non Tumescent (Gianesini S)

1 hour SCLEROTHERAPY

- 15 min Safety, indications & contraindications (Gianesini S)
- 15 min Therapeutic sclerotherapy (Chi YW)
- 15 min Aesthetic Sclerotherapy (Chi YW)
- 15 min Tips & tricks (Gianesini S)

1 hour WOUNDCARE

- 15 min Patho-physiology (Raffetto J)
- 15 min Advanced dressings (Raffetto J)
- 15 min Challenging cases & complications management (Mosti G)
- 15 min 10 golden rules (Mosti G)

1 hour DEEP VENOUS PROCEDURES

- 15 min Patho-physiology (Gasparis A)
- 15 min Thrombolysis: “must know” notions (Gasparis A)
- 15 min Stenting: “must know” notions (Narayanan S)
- 15 min 10 golden rules (Narayanan S)

1 hour COMPRESSION

- 15 min “Must know” principles (Mosti G)
- 15 min Graduated Compression in chronic venous disease (Gianesini S)
- 15 min Graduated Compression in acute venous disease (Gianesini S)
- 15 min Graduated Compression in healthy subjects (Gianesini S)

1 hour VENOUS ACTIVE DRUGS

- 15 min Mechanism of action (Mansilha A)
- 15 min Evidence-based data (Gianesini S)
- 15 min Instructions for users (Urbanek T)
- 15 min Topicals (Gianesini S)

1 hour LYMPHATICS

- 15 min Lymphedema Patho-physiology (Lee BB)
- 15 min Lymphedema – Lipedema diagnosis & management (Rockson S)
- 15 min 10 golden rules in lymphedema management (Rockson S)
- 15 min Surgical options for lymphedema (Rockson S)

1 hour PELVIC VENOUS DISORDERS

- 15 min Pathophysiology (Urbanek T)
- 15 min Diagnostic protocol (Urbanek T)
- 15 min Therapeutic options (Lazarashvili Z)
- 15 min Tips & tricks (Lazarashvili Z)

1 hour AESTHETIC LASER FOR TELEANGECTASIA

- 15 min “Must know” principles ()
- 15 min Indications, contraindications, future directions ()
- 15 min Instructions for users on available devices ()
- 15 min Complications management ()

1 hour ANTICOAGULATION

- 15 min “Must know” basic science data (Diaz J)
- 15 min Heparin: instructions for users (Liew NC)
- 15 min DOAC: instructions for users (Caprini J)
- 15 min Prophylaxis in phlebology setting (Caprini J)

RATIONALE

Proper venous & lymphatic management requires a deep knowledge of both the theoretical concepts and of the practical technical aspects. v-WIN PHLEB-Online course offers the opportunity of reviewing the most recent evidence-based recommendations, while enjoying fundamental instructions for everyday “users” of the vein clinic. A special focus is dedicated to the 360° approach to the patient, with dedicated lectures on diagnostics, operative strategies, sclerotherapy, compression, venous active drugs, lymphatic management and anticoagulation. Aesthetic phlebology is covered in depth as well, including both sclerotherapy and laser approaches. The remote educational experience is completed with direct accessibility of the world renowned international experts who are available for answering questions of the course attendees and even for practical experiences in their offices.

INTERNATIONAL FACULTY

Delegations of Scientific societies from all around the world will be involved. The following world renowned experts deliver also video lessons in a dedicated educational platform:

[Bottini Oscar](#) (Buenos Aires University, ARGENTINA), [Caprini Joseph](#) (University of Chicago, USA), [Chi Yung Wei](#) (University of California Davis, USA), [Diaz José](#) (Vanderbilt University, USA), [Gasparis Antonios](#) (Stony Brook University, USA), [Gianesini Sergio](#) (University of Ferrara-ITALY), [Jindal Ravul](#) (Punjab University, INDIA), [Kabnick Lowell](#) (American Venous Forum, USA), [Labropoulos Nicos](#) (Stony Brook University, USA), [Lazarashvili Zaza](#) (Georgian Association of Angiologists and Vascular Surgeons, GEORGIA), [Liew Ngoh Chin](#) (Putra University, MALAYSIA), [Lee Byung Bong](#) (George Washington University, USA), [Mansilha Armando](#) (Porto University, PORTUGAL), [Mosti Giovanni](#) (International Compression Club, ITALY), [Narayanan Sriram](#) (Asian Venous Forum, SINGAPORE), [Neuhardt Diana](#) (American Vein Lymphatic Society, USA), [Raffetto Joseph](#) (Harvard University, USA), [Rockson Stanley](#) (Stanford University, USA), [Urbanek Tomasz](#) (Silesia University, POLAND).

TECHNICAL NOTES VIDEOS & LIVE WORKSHOPS

World renowned experts are available for recording technical notes videos and for performing live procedures with trainees involving the following techniques:

1) [Endovenous Laser](#) 2) [Radiofrequency](#) 3) [Glue](#) 4) [Sclerotherapy](#) 5) [Device-assisted Sclerotherapy](#) 6) [Laser & sclerotherapy aesthetic treatments](#) 7) [Woundcare](#) 8) [Venous Surgery](#)

FOOD for VEINS, VEINS for FOOD

Corona Virus pandemic, the associated containment and related lack of work have been exasperating the poverty of many developing countries, thus severely worsening even the alimentary sources of the lowest social classes (LANCET 2020: “*Redefining vulnerability in the era of COVID 19*”). v-WIN PHLEBOnline course is available for free to all health professionals, so providing “food for thoughts” on venous topics ([FOOD FOR VEINS](#)). In return, v-WIN foundation kindly suggests the trainees to devolve the income of one venous treatment per month to recognized not for profit organization dedicated to food programs for developing countries ([VEINS for FOOD](#)).
