

Sept 7, 2020

SUBJECT:

“from CHINA to the WORLD and back” project statement

PROJECT RATIONALE:

paradoxically, despite the extremely high number of skilled professionals operating in the Chinese venous-lymphatic field, a **limited exchange of international experience occurs** at the moment. The Chinese Society of Phlebology and the venous-lymphatic World International Network (v-WIN) foundation have developed the **“from CHINA to the WORLD and back”** not for profit educational project to enhance medical interaction of Chinese colleagues, both inside their large national borders and with colleagues and scientific organizations from all the continents.

VISION:

to gather together **KOLs from China** and **all the continents**, delivering a top quality educational project, actively **involving the audience**.

MISSION:

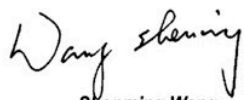

3 live webinars (Nov 14, Dec 19, Jan 16) + **3 recorded modules** including extra educational videos and community software (chat, expert opinions exchange, quiz, survey, polls).

FEATURES:

- a) **Free registration** to the webinars for all attendees.
- b) **Free abstracts** selection with **awards**.
- c) **Free evidence-based comments selection** in the recorded educational platform.
- d) **International CME** credits and **attendance certificate**.
