VISION

to increase both **multi-specialty health professionals**
& **public venous-lymphatic awareness**

by

delivering a **united message**

from

scientific/educational organizations
around the world.

Vein Week INDONESIA

MISSION

Common agenda
in which every **LOCAL REALITY** develops
its own initiatives,

while **sharing with the rest of the world**
by means of the
VEIN WEEK customized **geo and data localization software.**

The week is set around
around April 7th (World Health Organization – **World Health Day**)
