

medi. I feel better.

26 MAY 2023

18:30 till 19:30 PM; by Prof. Dr. Sarah Thomis & An-Kathleen Heroes, Leuven University Hospital Belgium

Moderators: Valerie Smeelen-Wendt, Tom Röpke and Els Brouwer

Dear V-Italy guests,

Compression therapy is an important part of the treatment and maintenance of venous & lymphatic disease. With all the surgical interventions compression therapy seems less important but this is an illusion. Even after the micro-surgical interventions in lymphoedema, like LVA and Lymph Node transplantation, compression is needed, but not always communicated.

Program:

Prof. Dr. Sarah Thomis and physiotherapist An-Kathleen will take us thru the possibilities of surgery, the role of compression and self-management in the treatment of (lymph)oedema:

- 18:30 hr. Surgical options in (lymph)oedema patients;
Prof. Sarah Thomis, vascular surgeon
- 18:45 hr. Selfmanagement and quality of live,
An-Kathleen Heroes,
physiotherapist/researcher
- 18:55 hr. Compression as part of the patient's journey;
A real live example: the Leuven University Clinic;
An-Kathleen Heroes
- 19:05 Discussion with audience, speakers and moderators

Registration via: <https://forms.office.com/e/mrqjZcWxNvmedi>

**Invitation to our
workshop**

**Limited seating max.
20 attendees**
