V-ITALy VeinLymphatic Global Summit

1. At the top of the **Scalinata** and near the **Fountain of the Barcaccia**, a group of **professors** and **representatives of the public** will explain the initiative and invite the population to participate.

2. Along the staircase, **6 professors** from **6 continents** will hold signs with **vein-lymphatic health messages**, while commenting the passage of the different attendees, eventually wearing compression stockings.

3. The professors from all continents, together with public representatives, using a mic, will describe the event and **engage the people passing by**.

4. PARTICIPANTS: **Professors** from all over the world, **models** (including “inclusive” models to promote a social message on body size and dysmorphia), **public** previously contacted as well as those engaged on site.

5. For ALL participants **professional picture on the most famous “scalinata”**.

SUBJECT: Vein-lymphatic Leg health goes with fashion press release

On September 4, in Rome, from 6.30 to 6.45 pm, a historic event will take place in one of the most iconic venues of the world: THE Piazza di Spagna.

The initiative will be dedicated to Vein-Lymphatic Leg Health and it will be part of the V-ITALy Vein-Lympahtic Global Summit.

Leg venous disorders develop in 6 clinical classes: almost like if it was fate, exactly 6 are the landing areas of the enchanting Piazza di Spagna.

Therefore, 6 world renowned vein-lymphatic experts, from 6 different continents, will be positioned along the 6 landing areas, holding 6 educational banners, together with 6 new generation doctors representatives, all together describing the event, providing health awareness, introducing the other professors and public who will walk meanwhile down the famous steps.

At the top and bottom of the stairs, other world renowned professors from all continents will wait for all the ones who will like to join: indeed, **the event is open to all the population.**

Photographers will be positioned in the spectacular «Piazza» to take pictures of all the ones who will like to «picture» that “Venous-lymphatic Leg Health goes with Fashion”.

Everybody can join the descent by a click to this link:

SUBJECT: La Salute delle Gambe va di moda, comunicato stampa

Il 4 settembre, a Roma, dalle 18:30 alle 18:45, si svolgerà un evento storico in uno dei luoghi più iconici al mondo: Piazza di Spagna.

L'iniziativa sarà dedicata alla salute venosa-linfatica delle gambe e farà parte del «V-ITALy Vein-Lymphatic Global Summit».

I disturbi venosi delle gambe si sviluppano in 6 classi cliniche: quasi come fosse destino, esattamente 6 sono le terrazze intermedie della splendida Piazza di Spagna.

Per questo motivo, 6 esperti di fama mondiale nel campo venoso-linfatico, provenienti da 6 diversi continenti, saranno posizionati lungo le 6 terrazze, ognuno con un cartello educativo, insieme a 6 giovani medici rappresentanti la nuova generazione, tutti impegnati a descrivere l'evento, fornire informazioni sulla salute, presentare gli altri professori e il pubblico che nel frattempo scenderà i famosi gradini.

In cima ed in fondo alla scalinata, altri professori di fama mondiale, provenienti da tutti i continenti, accoglieranno chiunque vorrà partecipare: l'evento, infatti, è aperto a tutta la popolazione.

Fotografi saranno posizionati nella spettacolare Piazza per scattare foto che ricordino come “La salute venosa-linfatica delle gambe va di moda”.

Tutti possono partecipare cliccando su questo link:
